THE UNIVERSITY OF CENTRAL FLORIDA (UCF) announces multiple Provost Professorships to be filled by the College of Engineering and Computer Science (CECS). The Provost Professorship is accompanied with a yearly allocation of discretionary funds to facilitate the candidate’s expected extraordinary research productivity.

UCF seeks outstanding candidates in all disciplines associated with CECS’s research mission, especially those who work across academic fields within and outside of the College’s domains. With this targeted hiring initiative, UCF seeks to build on its existing strengths in the engineering and computing disciplines by adding senior faculty members who will have an immediate impact on CECS research funding and scholarly productivity.

SPECIFIC REQUIREMENTS
• An earned doctoral degree in engineering, computer science or other appropriate disciplines
• A record of accomplishments that justifies appointment as a tenured full professor
• A professional history of successfully mentoring those in junior positions

HIGHLY DESIRABLE QUALIFICATIONS
• A record of securing competitive research funding
• A record of sustained scholarly achievements, including publications in highly respected venues and international peer recognition
• A history of working in teams, especially those that span multiple disciplines
• A record of directing Ph.D. students to completion

TO APPLY
Candidates must submit all required documents at the time of application online to https://www.jobswithucf.com/postings/37068
Required documents include: signed cover letter; complete curriculum vitae; maximum two-page statement outlining research vision and teaching interests; list of at least three references with contact information. Review of applications will begin immediately and continue until the positions are filled.
